

One button will alert help

- > The Personal Help Button is worn as a pendant or a wristband
- > In the event of an emergency, wearer presses Personal Help Button
- > When the alarm signal is received, an ADT Emergency Response Specialist is alerted
- > ADT will call a friend or family member when needed or despatch an Ambulance if required

Approximately
12% of people
aged 65 or over
reported incurring
an injurious fall over
a 12 month period*

*Jorm et al 1995, ABS 1995
