

Keep an eye on your business 24/7

ADT Vision makes video surveillance more affordable than ever

ADT Always There[®]

a cost-effective, rapid and hassle-free way to respond to alarms

Video Surveillance benefits:

- Helps deter theft and shoplifting
- Helps deter false accident claims
- Assists in identification of offenders
- Ability to monitor staff and visitors
- Record activities and monitor for productivity
- Help in collecting information and evidence against litigation

The use of video surveillance to detect crime and enhance safety is increasingly recognised as an effective way to help protect your business, people and property.

ADT Security has long specialised in providing Closed Circuit Television (CCTV) equipment for video surveillance systems to suit businesses of all types and sizes. And now, with the introduction of ADT Vision, you can receive the benefits of an end-to-end CCTV solution with little or no capital outlay and easy monthly payments to free up your cash flow.

With no hardware costs, no interest payments, no deposit and potential tax benefits, ADT Vision is a low risk and high value option to protect your business.

why choose ADT Vision?

ADT Vision offers hardware, software and services to suit many types of surveillance purposes.

pay by the month

You can rent an ADT Vision solution on a monthly basis, direct from ADT Security. So there's no large up-front cost, and your monthly rental is a fixed low amount for the whole surveillance package. There may also be tax benefits such as tax deductibility, ask your accountant for further details.

monitoring - a fast response service

If required, ADT Security alarm monitoring teamed with ADT Security's video verification option, allows our monitoring staff to view footage transmitted from your site remotely when your alarm is triggered, and respond accordingly.

verify false alarms

Using the video verification option, our Security Response Centre will examine your video footage to determine the appropriate course of action – meaning the incidence of response to a false alarms is reduced considerably.

digital CCTV

With digital CCTV technology there is no need to replay hours of tape to search for an incident. CCTV footage can be searched by simply entering a date and time, applying a mouse pointer to a timeline on a monitor screen, or searching for activity in a specified area.

Environmental, Health & Safety (EH&S)

You can address EH&S legislation requirements with a video surveillance system that helps you provide a secure and safe working environment for your employees and visitors. It can also help provide you with information when investigating EH&S claims.

Improve your bottom line

Regardless of the size or nature of your business, you could be at risk from shoplifting and stock loss can be devastating to your sales and profitability. ADT Vision can assist you in reducing stock-loss by helping to protect your store from external and internal thieves.

We've got you covered

Virtual Guard services

For an extra layer of protection, ADT Security also offers Virtual Guard services as an alternative to traditional guard patrols. Our services help you to identify a genuine security alarm without ever having to attend your premises.

From the Security Response Centre, ADT Security can view your CCTV footage remotely. The result is rapid response times, reduced patrol costs and comprehensive reporting and recording – all at a fraction of the cost associated with traditional guard services.

Come rain, hail or shine, our operators will complete a virtual patrol of your site at whatever frequency you choose. We can help prepare a solution to suit your needs and budget.

trust the specialists in electronic security and CCTV solutions

Our ADT Vision packages are designed to help protect you against internal and external theft, to assist in capturing occupational health and safety footage, to improve productivity and to deter would be opportunists. And, most importantly, they bring peace of mind to both you and your employees.

ADT Security is a member of the Australian Security Industry Association Limited (ASIAL), which promotes a professional code of conduct within the security industry. ADT employees adhere to the code laid out by ASIAL and are appropriately licensed.

ADT Security helps provide reliable surveillance and monitoring for watching over the safety and security of your business.
