ADT Security

As the world's leading electronic security company, ADT Security has delivered proven solutions to the financial industry for more than 130 years. Today, among banks, credit unions and financial institutions of all sizes, we lead with integrated solutions that go beyond traditional security.

We know that you are balancing the need to reduce operating costs, while increasing levels of security and customer service. You are exposed to rising fraud and liability issues. You are faced with the risk of robberies, workplace violence and business continuity issues. So we leverage our breadth of technologies, expertise and services to provide business advantages to your operations.

global experience, local expertise

Throughout the world ADT is a prominent name in electronic security for the banking and finance industry. In the USA, ADT Security helps secure 8 of the top 10 national banks and half of the 75 largest financial institutions.

In Australia and New Zealand, ADT Security provides integrated security solutions to over half of the leading financial institutions including 3 of the top 5 banks in New Zealand and half of the top 4 banks in Australia. Our experience extends over every facet of installation and service, including project management, service management, customer and industry training, installation, field service and technical support.

security solutions

Our solutions do more than simply keep up with your business. They help guide it. By integrating risk management principles, life safety technology and security management, ADT Security can offer solutions that go beyond traditional security. In fact, our proven solutions currently provide business advantages for organisations of every size, from branch networks to head quarters to operation centres.

leading edge technology

An effective security system is not just one that adequately meets the security needs, but more importantly is a system you can trust.

leading edge technology designed to help you protect your investments

ADT Security provides a wide range of security solutions designed to meet your needs, to suit your schedule and to help you protect your assets. Our solutions are suitable for branches, ATMs and corporate sites.

intruder alarm

A professionally installed, maintained and monitored intruder alarm system is a significant deterrent to crime. The ADT security system will be designed and installed by our dedicated team of engineers using products that have been evaluated and rigorously tested.

access control

Providing legitimate access and circulation within a building and at the same time controlling the risk of unauthorised entry is a dilemma faced by the financial and business sector. Using the latest technology, we can provide an access control system to suit your requirements and needs whether it is a stand alone system or one that is fully networked.

CCTV

The use of closed circuit television to deter, detect and document crime is vital in today's business environment. We specialise in providing CCTV systems which meet the requirements of individual premises. A remote monitoring service including virtual guard tours can be provided by ADT.

24 hour alarm monitoring

Our customer care centre provides monitoring & assistance 24 hours a day, 365 days a year so you can rest assured with ADT.

managing risk

ADT Security can aid financial institutions with business contingency planning (BCP) through its dual redundancy call centre operations.

your dedicated account manager

With ADT Security, you will have a dedicated account manager, whose sole responsibility it is to ensure that your unique requirements are fully met and

Investigators have found that bank workers experience a range of short-term psychological and physical reactions in response to a hold up.*

security infrastructure vital for your business continuity

they will personally consult with you to determine the scope and content of the service to be provided. Your account manager will have experience in serving the finance sector and he/she will be able to update you on new and emerging technology to enhance your security arrangements.

certification

ADT Security is a member of the Australian Industry Association Limited (ASIAL) which promotes a professional code of conduct within the security industry. ADT Security employees adhere to the code laid out by ASIAL and are appropriately licensed.

choose ADT Security to help protect your business

Whether 10 branches or 1000 locations, you can rely on ADT Security for electronic security & monitoring solutions.
