Charging your device

Charging base

- Place the device on the charging base.
- Connect the USB cable from charging base to the AC adaptor.

The charging base light will glow when charging and turn solid when fully charged.

Tip

**For the first time use, please fully charge the battery for around 2-3 hours.**

Tip

When the battery level falls below 20%, the device will give a voice prompt of "low battery alarm".

Switching the device ON/OFF

1 Sec.

- To turn on the device: press the CALL button for 1 second, all the LEDs will flash rapidly. The device can also be turned on automatically by charging via magnetic USB cable or put it into the docking station.

3 Sec.

- To turn off the device: press and hold the side button and SOS button together for 3 seconds until the LEDs turn off.

What do the lights mean?

● **Cellular signal indicator - Green**

Green	Light shows a single flash rapidly every 3 seconds	Light shows a double flash rapidly every 3 seconds
Means	The device has a stable Cellular signal	The device is registered to the Cellular network

● **Positioning indicator - Blue**
